REPLACES SD FORM 373, 1 MAY 74, WHICH IS OBSOLETE.

#### BACKGROUND

The policy of the Department of Defense is to authorize and encourage the public release of information concerning the Department of Defense consistent with security requirements, and other exemptions to disclosure under the Freedom of Information Act. To implement this policy the Directorate for Security Review is responsible for review and final action on all material submitted for OASD (PA) public release clearance. To assist this office in making clearance determinations, it is necessary in some cases to solicit recommendations from knowledgeable sources within the Department of Defense and other Government agencies.

#### GUIDELINES

- a. **SECURITY** – Reviewing agencies should identify information known to be classified within the meaning of Executive Order 11652 (*DOD Regulation 5200.1R*) or information which in the judgement of the reviewing agency warrants classification. In the latter case, it is requested that reasons for this judgement be given and recommendations made for appropriate classification.
- b. **POLICY** – Material originated within the Department of Defense for public release should, in addition, be reviewed for conflict with established policies and programs of the Department of Defense or those of the national government. If change is necessary, reviewing agencies are requested to recommend acceptable substitute language where practicable, or to specify needed changes in sufficient detail to permit acceptable revision.
- c. **EDITORIAL** – Editorial review is not a responsibility of the Directorate for Security Review and reviewing agencies should not make editorial corrections. However obvious errors of fact should be indicated.
